Questions

First break

# Overview and Objectives

- Gain an understanding of a trauma- and violence-informed approach to digital media literacy education and program facilitation.
- Identify practical tools in trauma-informed facilitation for before, during, and after program facilitation.
- Engage in a guided, interactive activity to incorporate a trauma- and violence-informed approach in your own programs and facilitation practices.

[Questions](#)

[First break](#)

## Technology-Facilitated Violence And Abuse

A form of abuse or controlling behaviour involving the use of technology to coerce, stalk, surveil, or harass another person

# Trauma

An event or circumstance resulting in physical, emotional, and/or life-threatening harm.

Trauma also includes the lasting adverse effects that this event or circumstance has on an individual's physical, mental, emotional, social and spiritual health and well-being

## Re-traumatization

The re-activation of trauma symptoms through thoughts, memories, or feelings related to a past trauma experience.

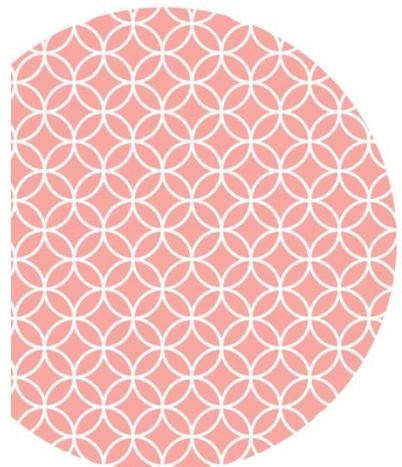

## Trauma- and Violence-Informed Approach

- Recognizes widespread impacts, signs, and symptoms of trauma and understands potential paths for recovery; fully integrates knowledge about trauma into policies, procedures, and practices; and seeks to actively resist re-traumatization  
—SAMHSA, 2014
- Implementing a trauma- and violence-informed approach is a continuous process and not an outcome
- We welcome comments, suggestions, feedback or promising practices on trauma-informed approaches

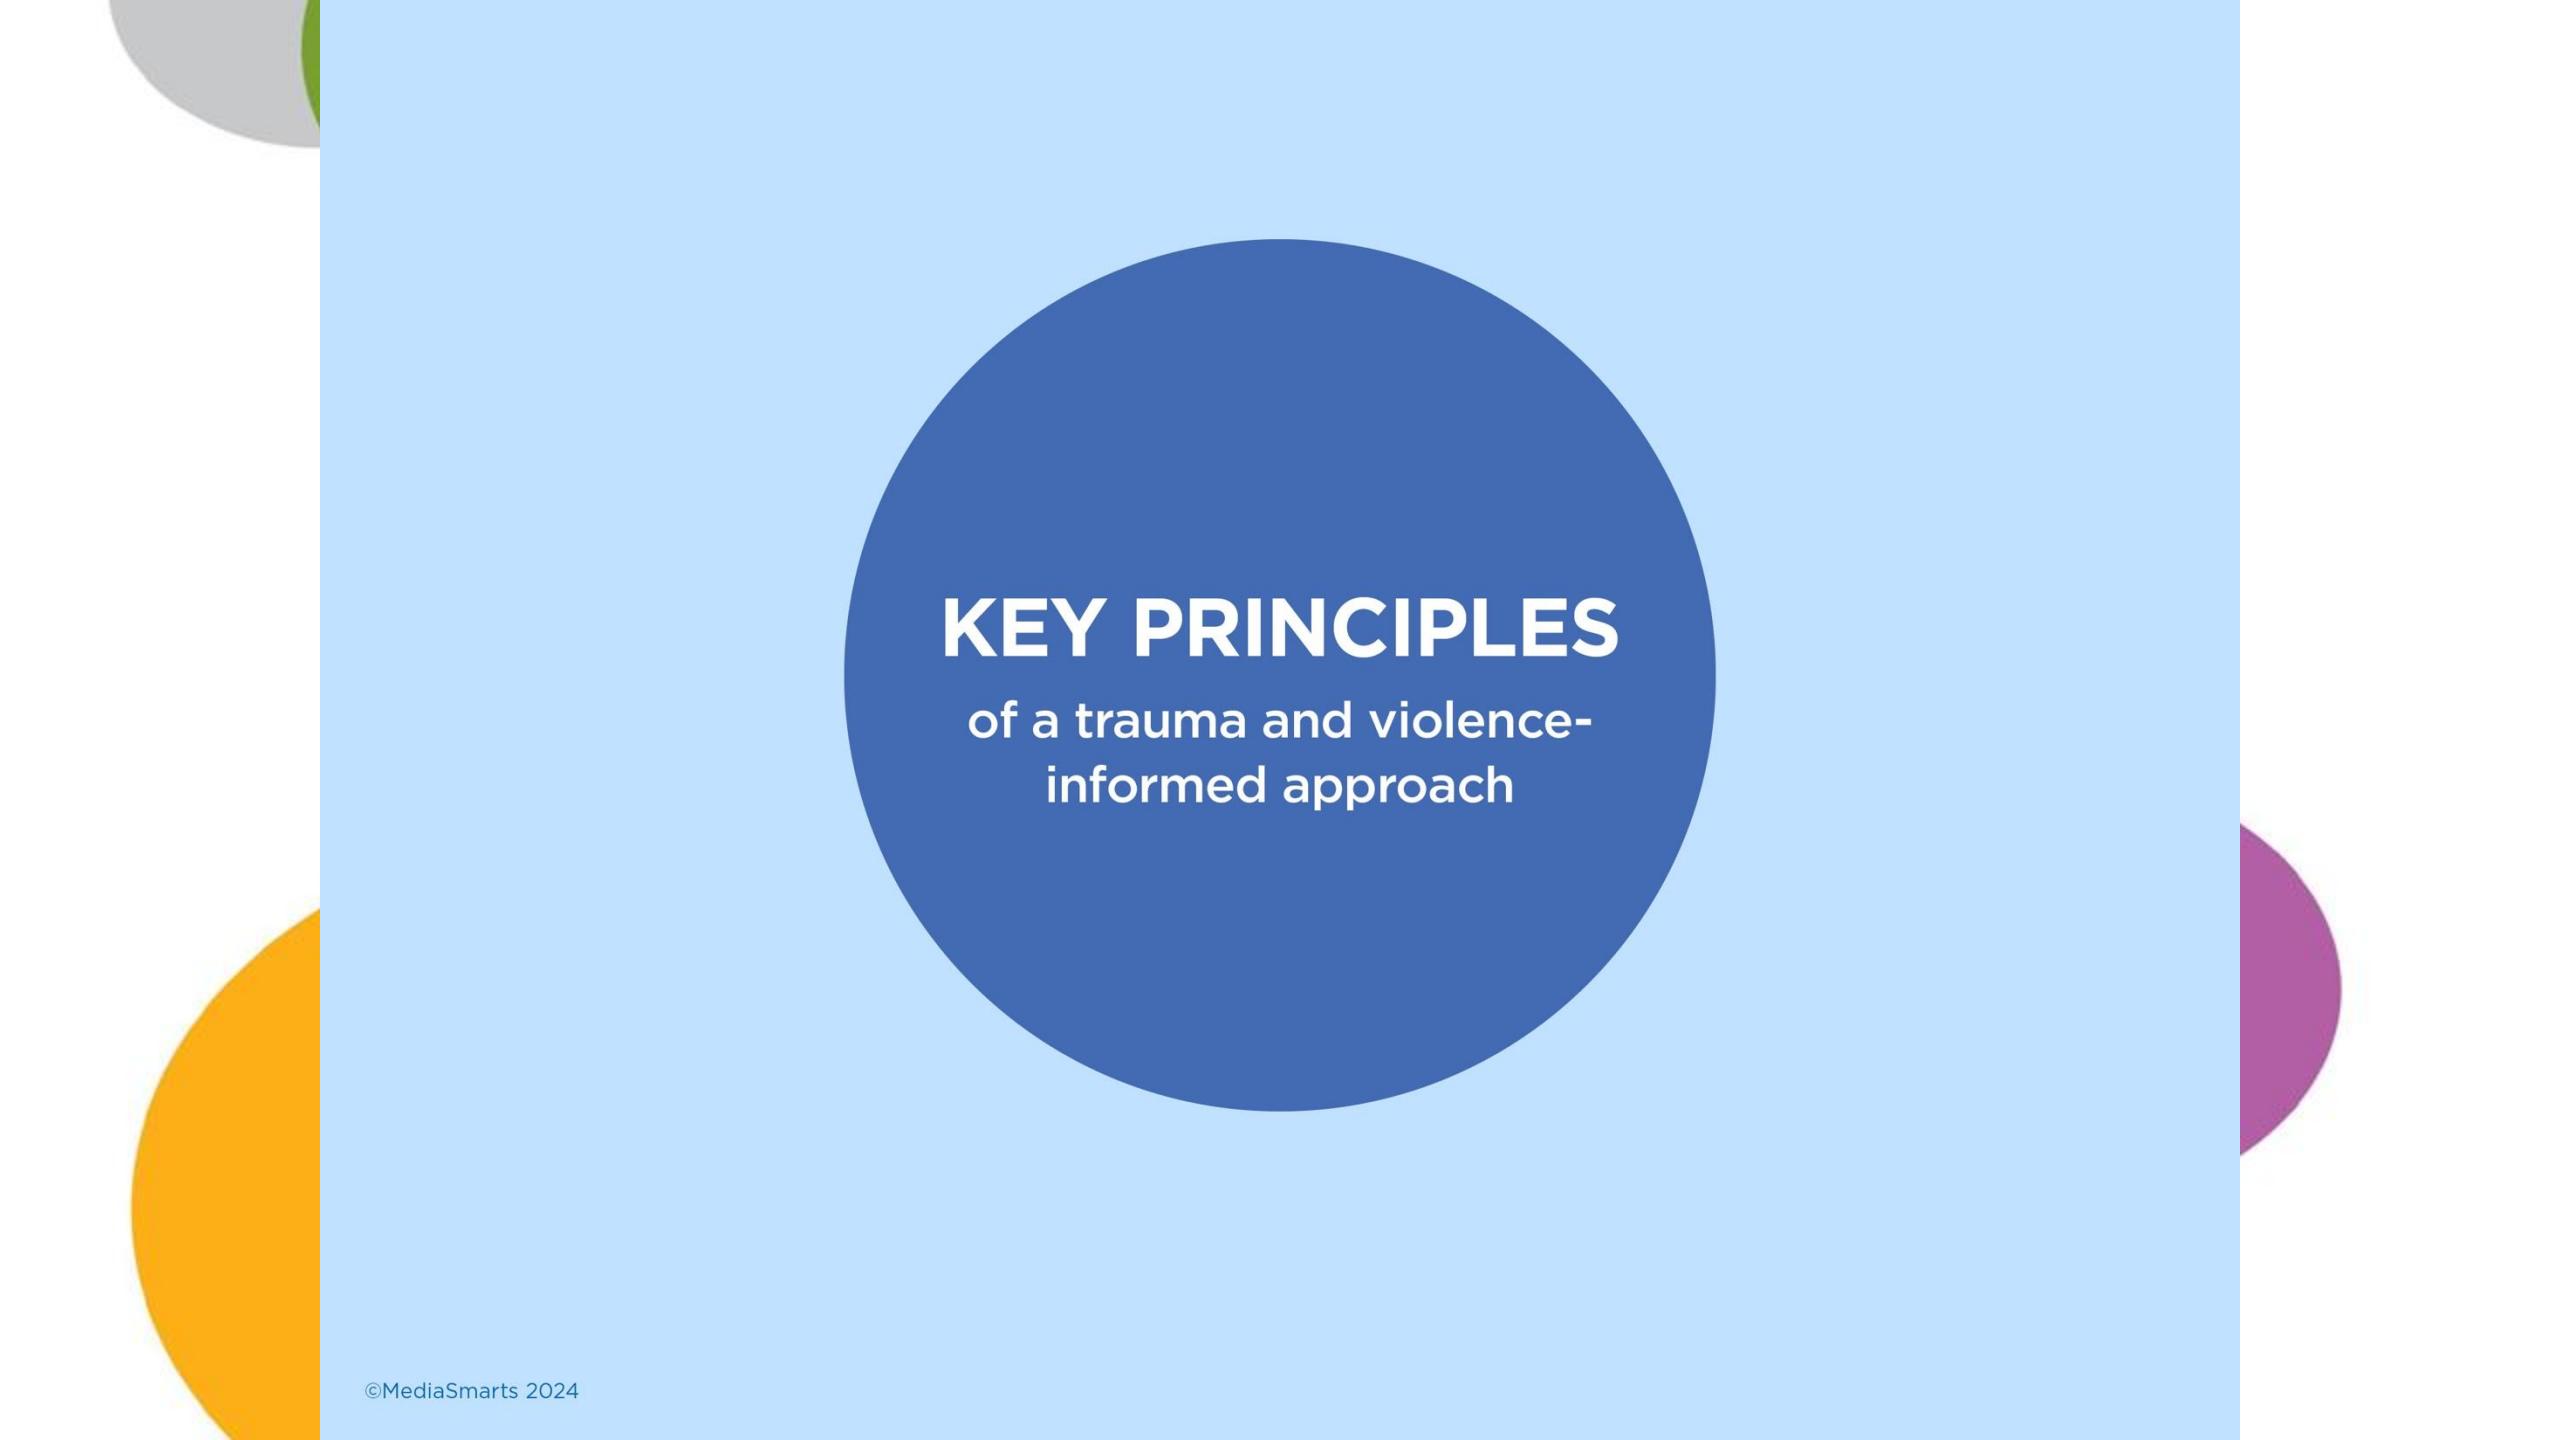

**QUESTIONS?**

## Handbook content

- Background information
- Six foundation principles for a trauma-informed approach
- Promising practices in implementing these six principles
- Considerations for remote/virtual facilitation
- Tip sheet

Questions

First break

# Safety

Participants and facilitators should  
feel physically, emotionally and  
psychologically safe

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Safety in the workshop design

- Multiple breaks (especially after potentially difficult discussions)
- Inclusive and empowering language
- Statements of fact
- Suggesting signals to indicate when participants need a break

# Safety: Promising Practices

For facilitators:

- Try to maintain awareness of your own emotions
- Have two facilitators per workshop to support breaks and instances where one-on-one attention may be needed
- Identify and utilize available resources and supports before, during, or after workshops
- Refer to tip sheet at the end of the handbook

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Safety: Promising Practices

For participants:

- Explain key concepts
- Consider the way a physical space is set up
- Look for signs of re-traumatization
- Prepare to potentially implement de-escalation techniques
- Debrief

walkthrough

Questions

First break

## Trust and Transparency

- built through being honest and clear about processes and operations during workshops
- allows participants to feel in-control and empowered while discussing potentially difficult topics

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

## Trust And Transparency: Promising Practices

- Confirm participants understand the workshop purpose and agenda
- Set expectations and boundaries at the start
- Check in regularly, allow for breaks when needed
- Communicate when you need to adjust the agenda

Questions

First break

# Peer Support & Collaboration

Key to establishing safety, well-being, and resilience because participants are often more empowered by collective rather than individual efforts

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Peer Support & Collaboration: Promising Practices

- Allow space and time for building relationships
- Allow participants to first assess and express their needs
- Collaborate with participants to make decisions where possible

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

## Empowering Participants

Encouraging participants' strengths and honouring their experiences, choices, and contributions

Especially important because of the feelings of powerlessness and lack of control associated with trauma and abuse

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook](#)  
[walkthrough](#)

[Questions](#)

[First break](#)

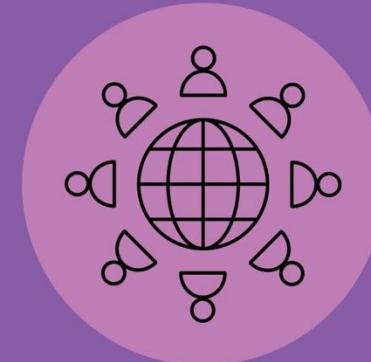

# Empowering Participants: Promising Practices

- Allow participants to make choices
- Affirm and validate participation
- Ask questions that encourage resiliency

# Considering Intersectionality And Cultural Humility

A trauma-informed approach  
acknowledges, respects, and is  
responsive to participants'  
identities and the intersections  
within those identities

[About MediaSmarts](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Considering Intersectionality & Cultural Humility: Promising Practices

- Maintain awareness of identities, their intersections, and how they may impact participants' trauma and participation
- Be respectful and open to different cultural approaches and ways of knowing
- Avoid assumptions and generalizations of different identities
- Use inclusive language and approaches

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Remote Facilitation: Challenges

- Barriers created by not sharing the same physical space (e.g. protecting participants privacy)
- Participants may join from spaces in which they experienced trauma
- Screen fatigue

[About MediaSmarts](#)

[Content Warning](#)

[About the project](#)

[Facilitation handbook  
walkthrough](#)

[Questions](#)

[First break](#)

# Remote Facilitation: Promising Practices

- Confirm participants are in a safe and comfortable space
- As much as possible, ensure online privacy and safety
- Make use of online features that can enable safety and well-being
- Consider body language and environment

## Tip Sheet: Summary of Promising Practices

### Key Definitions:

**Digital Media Literacy:** the ability to access, use, understand, and engage with media in all forms confidently and critically.

**Technology-Facilitated Violence and Abuse:** a form of abuse or controlling behaviour involving the use of technology to coerce, stalk, surveil or harass another person.

**Trauma-Informed Approaches:** understand and are sensitive to the histories of trauma that people carry and encourage environments of well-being and safety rather than practices that may inadvertently re-traumatize.

### Recommended Practices

#### Safety

- Confirm that participants understand key concepts including trauma and abuse.
- Establish access to supports.
- Look for signs of triggers and re-traumatization.
- Review de-escalation techniques.
- Set up the space with safety in mind.
- Allow more time for debriefs if needed.

#### Trustworthiness and Transparency

- Confirm participants understand the workshop purpose and agenda.
- Set expectations and boundaries.
- Check in regularly, allow for breaks when needed.
- Be honest and transparent including when you don't know something.

#### Peer Support and Collaboration

- Allow space and time for building relationships.
- Allow participants to first assess and express their needs.
- Collaborate with participants to make decisions where possible.

#### Empowerment

- Allow participants to make choices.
- Affirm and validate participation.
- Ask questions that encourage resilience such as: "What thoughts or actions give you hope?"

#### Cultural Humility

- Maintain awareness of identities, their intersections and how they may impact participants' trauma and participation.
- Be respectful and open to different cultural approaches and ways of knowing.
- Avoid assumptions and generalizations of different identities.
- Use inclusive language and approaches.

#### Remote Facilitation

- Confirm participants are in a safe space and can protect their online safety and privacy.
- Make use of online features such as registration and breakout rooms to promote participant safety.
- Consider how your body language and environment may come across to participants.
- Debrief and send follow-up email with workshop materials, resources, and supports.

# RESILIENCE THROUGH DIGITALSMARTS

[About the workshops](#)

[Second break](#)

[Digital storytelling  
workshop](#)

[Workshop evaluation](#)

[Questions](#)

[Wrap-up/Next steps](#)

## Introductory workshops

- Intended for participants with most limited skills
- Focus on fundamental skills in **Access** and **Use** categories
- Little overlap

About the workshops

Second break

Digital storytelling  
workshop

Workshop evaluation

Questions

Wrap-up/Next steps

## Advanced workshops

- Intended for active Internet users
- Cover more advanced **Use** skills and introduce **Understand** and **Engage** skills
- Some overlap with Introductory workshops and each other

About the workshops

Second break

Digital storytelling  
workshop

Workshop evaluation

Questions

Wrap-up/Next steps

# Workshop format

**Each workshop follows the same structure:**

- Overview
- Content topics
- Quizzes
- Hands-On Activities
- Troubleshooting
- Vocabulary review
- Questions
- Follow-up: video and practice sheet

**QUESTIONS?**

# ACTIVITY

Pick **one** trauma-informed principle  
*(safety; trust and transparency; peer support and collaboration; empowering participants; considering intersectionality & cultural humility)*

Communicate **three** concrete ways  
you could implement this principle  
in a past or current program/project
